GENUINE ACCESSORIES

At Yamaha, we believe our motorcycles and scooters should offer the ultimate expression of personal freedom and individuality, regardless of whether your Yamaha is new or used. That's why we developed our Genuine Accessory range, with products offering almost unlimited scope for personalizing your Yamaha. Where outstanding design and functionality are just as important as the quality of the materials we use. And where every product bears the same hallmark of quality as the motorcycle or scooter itself: Yamaha.

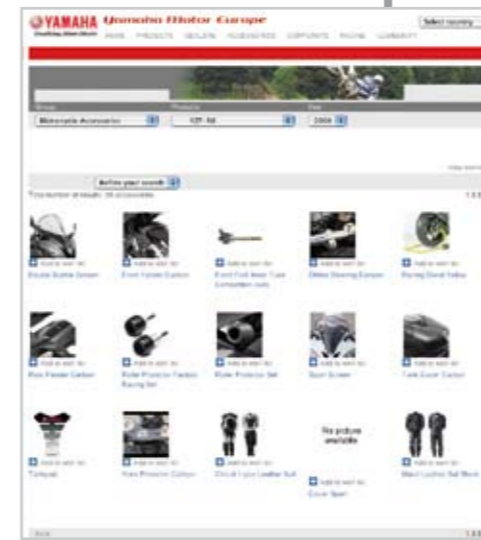

Our aim is to enable you to personalize your Yamaha exactly the way you want it to be, limited only by the bounds of technical feasibility. Which means the possibilities are virtually endless. There are many changes we can make to your Yamaha, but one thing stays the same: the warranty.

Whatever modifications and enhancements you ask us to carry out, your warranty remains unaffected. All Genuine Accessories have been tested and approved by Yamaha. They have also been specially developed for Yamaha and designed specifically for the motorcycles or scooters to which they are fitted. Which means your Yamaha remains a Yamaha. Only more so.
